You are about to purchase a product that is not simple and may be difficult to understand.

➤ What is this product?

Type: This product is a UCITS umbrella investment company.

Term: No fixed term.

Objectives: The Fund's investment objective is to seek to achieve interest income and capital appreciation over time by investing in fixed income and debt securities which are listed, traded or dealt in on regulated markets worldwide. The Fund will typically invest in traditional fixed income and debt securities such as government and corporate bonds. The Fund may also invest in non-traditional fixed income and debt securities such as loan participations and assignments, asset-backed ("ABS") and mortgage-backed securities ("MBS"), preferred stock, zero-coupon bonds, municipal bonds, payment-in-kind securities (such as payment-in-kind bonds), rule 144A securities and step-up securities (such as step-up bonds). The primary geographical focus of the Fund's investment is the U.S., Canada and Europe. The Fund may invest outside of the U.S., Canada and Europe (including emerging markets) if it considers this appropriate.

The Fund is actively managed, meaning the investment manager will actively select, purchase and sell securities with the aim of meeting the investment objectives of the Fund. The Fund's performance is measured relative to the Barclays US Aggregate Bond Index (the "Index") for comparison purposes only. The Index is a broad-based flagship benchmark that measures the investment grade, US dollar-denominated, fixed-rate taxable bond market. The Index includes treasuries, government-related and corporate securities, MBS (agency fixed-rate pass-throughs), ABS and commercial MBS (agency and non-agency). The Index does not define asset allocation of the Fund and depending on market conditions the Fund may deviate significantly from the Index.

The Fund may also invest in collective investment schemes, transferable securities which are not listed, traded or dealt on a regulated market, cash, and warrants or other forms of restructuring equity or securities, which are received as a result of an in-court or out-of-court financial restructuring or insolvency proceeding. The Fund may engage in transactions in financial derivative instruments ("FDI") such as futures, forwards, swaps (including but not limited to total return swaps), swaptions, options, repurchase agreements and reverse repurchase agreements to hedge its investments, gain market exposure and manage the effects of interest rate movements on the Fund's performance and volatility. A swaption is an option on a swap which gives the Fund the right to enter into an interest rate swap at a specified date in the future. Swaptions are contracts whereby one party receives a fee in return for agreeing to enter into a forward swap at a predetermined fixed rate if some contingency event occurs. A reverse repurchase agreement is a transaction whereby a fund purchases securities from a counterparty and simultaneously commits to resell the securities to the counterparty at an agreed upon date and price. A future is a contract, traded on an exchange, to buy or sell an asset at a specified price and on a specific future date. Forwards are similar to futures but are traded with a specific counterparty as opposed to on an exchange. Swaps are agreements between two parties to exchange future payments in one financial asset for payments in another. Swaps must include an exchange of a principal amount at the maturity of or at the inception of the contract. An option is a contract that gives the buyer the right, but not the obligation, to buy or sell an underlying asset at a specific price on or before a certain date.

The Fund may use foreign currency spot transactions for hedging against the base currency of the Fund (including, but not limited to, for managing settlement risk, dividend income and subscription and redemptions in currencies other than the base currency).

Investors may redeem their shares (whether in whole or in part) on any dealing day in which the banks are open for business in Ireland and the US.

Intended retail investor: The Fund is intended for investors (i) that seek an investment horizon of 3-5 years or more, is prepared to accept a low to moderate level of volatility, and is seeking income from the investment, (ii) with knowledge and/or experience of these types of products, (iii) that have obtained appropriate investment advice and (iv) that have the ability to bear losses up to the amount they have invested in the Fund.

Depository: The Fund's assets are held through its Depository, which is The Bank of New York Mellon SA/NV (Dublin Branch).

Distribution type: The product is accumulating.

➤ What are the risks and what could I get in return?

Risk indicator

Lower risk

Higher risk

The risk indicator assumes you keep the product for 5 years.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 2 out of 7, which is a low risk class.

This rates the potential losses from future performance as a low level, and poor market conditions are very unlikely to impact our capacity to pay you.

Performance scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average and best performance of the product/benchmark over the last 5 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

Example investment: EUR 10,000		1 year	5 years
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress Scenario	What you might get back after costs	EUR 6,380	EUR 6,710
	Average return each year	-36.18%	-7.67%
Unfavourable Scenario ¹	What you might get back after costs	EUR 7,510	EUR 7,660
	Average return each year	-24.90%	-5.20%
Moderate Scenario ²	What you might get back after costs	EUR 9,520	EUR 11,100
	Average return each year	-4.76%	2.12%
Favourable Scenario ³	What you might get back after costs	EUR 11,890	EUR 14,270
	Average return each year	18.89%	7.37%

¹This type of scenario occurred for an investment from 2021-07-31 to 2022-09-30

²This type of scenario occurred for an investment from 2016-02-29 to 2021-02-28

³This type of scenario occurred for an investment from 2012-09-30 to 2017-09-30

➤ What happens if Guggenheim Partners Investment Management, LLC is unable to pay out?

You may face a financial loss should the manufacturer or depositary/custodian, The Bank of New York Mellon SA/NV (Dublin Branch), default on their obligations.

There is no compensation or guarantee scheme in place which may offset, all or any of, this loss.

➤ What are the costs?

Cost over time

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, and how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return)
- For the other holding periods we have assumed the product performs as shown in the moderate scenario
- EUR 10,000 per year is invested

Example investment: EUR 10,000	If you cash in after 1 year	If you cash in after 5 years
Total costs	EUR 909	EUR 1,329
Annual cost impact(*)	9.09%	2.34%

(*)This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 4.45% before costs and 2.12% after costs.

Composition of costs

The table below shows the impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period and the meaning of the different cost categories.

The table shows the impact on return per year		Annual cost impact if you exit after 5 years	
One-off costs upon entry or exit	Entry costs	5.00% of the amount you pay in when entering this investment	EUR 500
	Exit costs	3.00% of your investment before it is paid out to you	EUR 300
Ongoing costs taken each year	Management fees and other administrative or operating costs	1.23% of the value of your investment per year. This is an estimate based on actual costs over the last year.	EUR 122.91
	Transaction costs	0.00% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	EUR 0
Incidental costs taken under specific conditions	Performance fees and carried interest	There is no performance fee for this product.	EUR 0

➤ How long should I hold it and can I take my money out early?

The recommended minimum holding period: 5 years.

This product has no required minimum holding period and is designed to be a medium to long-term investment. You may sell your shares in the product, without penalty, on any day which banks are normally open for business in Ireland and the U.S.

➤ How can I complain?

If you have any complaints about the product, the conduct of the PRIIP manufacturer or the person advising on, or selling, the product, complaints can be lodged via the following methods:

E-mail: gpimucits@guggenheimpartners.com

Postal address: Guggenheim Global Investments plc, 2nd Floor, 5 Earlsfort Terrace Dublin 2, Ireland.

Website: www.guggenheiminvestments.com/UCITS.
