Certain Information about Distributions

The payment of future distributions is subject to the discretion of the Board of Trustees and there can be no assurance as to the amount or timing of any such future distributions. Distributions are not guaranteed. Future distributions to shareholders may be funded in significant part by the reimbursement of certain expenses that are subject to repayment to the advisors of the Funds. Such waivers and reimbursements by the advisors may not continue in the future. If the advisors had not agreed to reimburse certain expenses, significant portions of the distributions paid thus far may have come from offering proceeds or borrowings. The repayment of amounts owed to the advisors will reduce the future distributions to which investors would otherwise be entitled.

Risk Factors

This investment is speculative and contains a high degree of risk. Investors should consult a financial professional to determine whether the risks are compatible with their investment objectives. An investment in the Fund is illiquid, which means that you will have limited ability to sell your shares, and should not expect to be able to sell your shares prior to a liquidity event, which is not guaranteed. Please read the Fund's prospectus for more information about these and other risks.

Investors should consider the investment objectives and policies, risk considerations, charges and expenses of any investment before they invest.
